

Category Decision Tree:

There are 20 categories but solo and ensemble may be combined if there are insufficient entries in a category. There could be more categories if too many entries require that the category be split by size. When considering past experience, categories 2 and 10 are most likely to require further subdivision by size.

Categories 1-19 are eligible for professional judging. Categories 1-17 are eligible for Best of Show while category 20 is not. Only items submitted for professional judging are eligible for ribbons awarded by the Professional Judge.
