

## Dog and Cat Beds

Small: 20"x24"

Medium: 18"x30"

Large: 30"x36"

You need two pieces of fabric the size you choose. Fleece for both pieces or fleece for top and a sturdy fabric on bottom.

Stuffing, fabric clippings and poly batting scraps help to fill along with fabric scraps.

Sewing Machine with size 90+ needle or jeans needle.

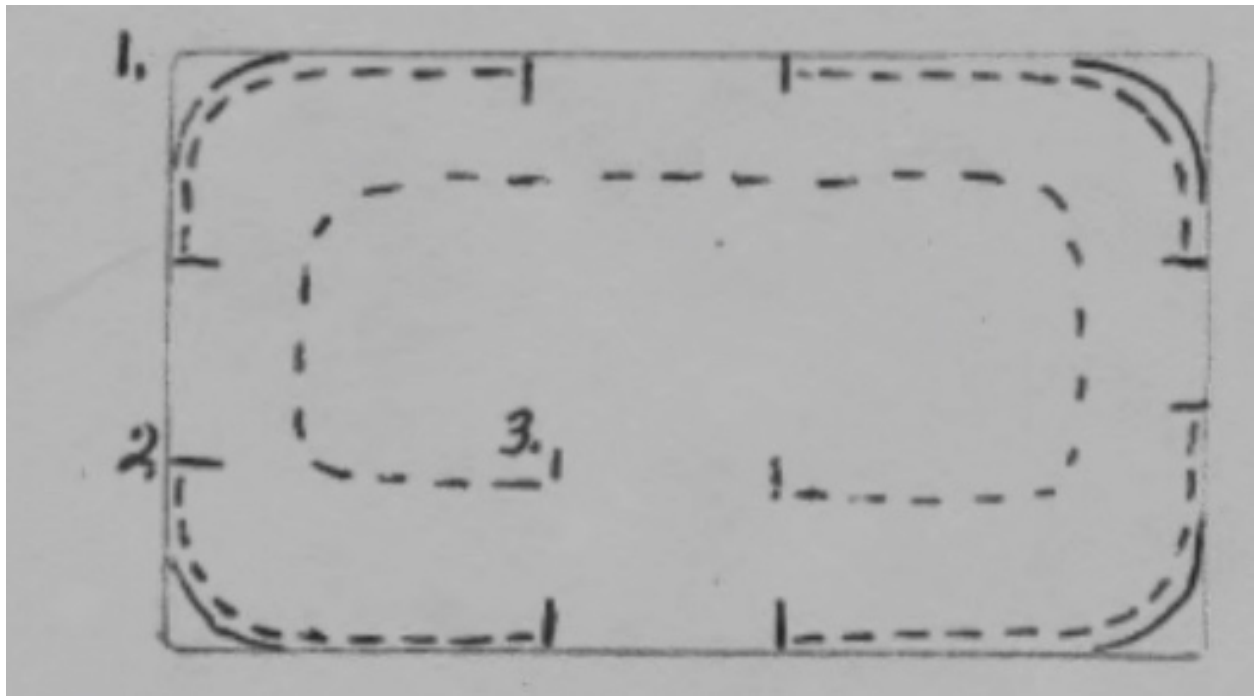

Walking Foot

Tools you use when sewing

1. Cut out 2 pieces of fabric the size you choose. Right sides together round and trim off the corners.
2. Sew around outside edge, leaving 6" to 8" openings in center of all four sides. Back stitch at beginning and end of these openings when stitching.

Turn piece inside out.

3. Mark bottom of bed about 5" or 6" inside the outside edge on the back fabric, leaving a hole of 8" in line with the front edge hole. Stitch this center area, back stitching the 8" hole. Fill the center with stuffing and sew the 8" hole closed. Stuff the outside rim and sew the openings closed.
